

BDA LAB - 5B

1. Create keypace Library with replication = {'class': 'SimpleStrategy', 'replication_factor': 3};

USE library;

- ~~2. Create Columnfamily library - info (stud_id int, counter - value Counter, stud_name = 'Ajith' and book = 'C++' and book_id = 357 and doi = '18-09-2020')~~
2. Create Columnfamily library - info (stud_id int, counter - value Counter, stud_name text, book text, book_id int, doi text, Primary key (stud_id, stud_name, book, book_id, doi));
3. Update library - info SET counter - value = counter - value + 1 where stud_id = 111 and stud_name = 'Ajith' and book = 'C++' and book_id = 357 and doi = '18-09-2020';
4. Select * from library - info;
5. Select * from library - info where stud_id = 112;
6. COPY library - info TO 'library - info . csv';
7. COPY library - info FROM 'library - info . csv';
